Tax Collector Appointment: Betty Nichols, along with members of the Finance Committee, joined the meeting to discuss various aspects of the tax collector work. She stated that, in regards to her FY21 budget, it is possible that expenses for the CAMA program will go down but she does not know. Betty explained that she has to retire from all her positions in order to begin receiving her retirement income but wants to continue in the tax collector position. On a motion by Gloria Cronin Fisher and a second by Robyn Provost Carlson, the Select Board unanimously voted to appoint Elizabeth Nichols to a post-retirement position of tax collector starting May 2, 2020 until June 30, 2021. Both the Board and Betty agreed that the current job description remains accurate to the duties of the position.

The new software that Betty is using takes a great deal of time to process tax bills. She is running both programs because of challenges with the new software. When the company updates one aspect, it will often break other parts of the program. Thus far the town has not paid anything for the new program. There is $10,467 in the Tax Collector Software Stabilization Account in case payment needs to be made. In response to questions about payment of real estate tax payments, Betty said she did not know what percentage of the bills had been paid. About $100,000 of tax payments are paid through mortgage escrow funds.

Northeast IT: The Board and Finance Committee discussed the spread sheet provided by Joel Mollison who was unable to join the meeting. The three tiers of proposed services were reviewed. Questions were compiled that Hilma will email to Joel to request more information. These include asking for more details about the different long-term projects that he had listed, differentiating between consumer grade and business class equipment, and the argument for switching to Office 365.

COVID-19 Municipal Items:
The Board discussed needing to add a few more employees to the list of essential employees who were authorized to work in town buildings. On a motion by Gloria Cronin Fisher and a second by Robyn Provost Carlson, the Select Board unanimously voted to include the Librarian, Assistant Librarian, and Town Accountant assistants to the list of Essential Employees.
Town Coordinator’s Report:

CodeRED: Arranged for upgrade in service plan. The company is preparing the new agreement. On a motion by Gloria Cronin Fisher and a second by Robyn Provost Carlson, the Select Board unanimously voted to authorize the Town Coordinator to sign the agreement when it is received. The new plan is to be fully unlimited for the remainder of the contract year.

S. Gruen email: Hilma had sent the complaint about neighboring dogs on to the ACO with a note that the animals were not licensed.

WiFi Hotspot: There were a series of emails between Brian and Rich Carnall, WGE, regarding location of the state provided WiFi Hotspot. This service will be at no cost to the town. It appears that it can be installed at either Town Hall or the Former School Building as there is an MBI installed T1 line that goes to both buildings as is needed to run the WiFi equipment. Brian stated that he would like to obtain a little more information and would like the Board to make a decision next week on the location.

MTRSD Superintendent update: Barbara Rode, who was in attendance, reported that schools were distributing packets of learning materials to children without internet service. DESE had reversed its position of only reinforcing previous learning to requiring new learning. The official end of the school year is June 17th.

K. Leistyna email: Brian will draft a response to Kara’s questions about Green Communities’ future projects and town-funded Special Projects.
MIIA notice of cancellation and refund: There are different amounts listed on the email and the policy cancellation notice for the refund. Hilma will seek clarification.

This resignation includes her positions on the Council on Aging, the Community Hall Committee and as an Election Poll Worker. MacPhee, FRCOG, and an announcement from the Executive Office of Energy and Environmental Affairs stating that the next round of funding for the Municipal Vulnerability Preparedness (MVP) Program was available and applications would be received. Hilma will research the application requirements and contact Ms. MacPhee.
