4. Item 3A of agenda-discussion of interaction between fincom and BOS: Alice noted that when discussing matters that have a financial impact, fincom should be involved. There should be a clarification of respective roles.
5. Item 4: Review information to date regarding the MTRSD assessment error. Ned and Hilma discussed the current status via telcon on October 20th. Ned shared his email regarding the matter. The BOS is having a special session to strategize response to MTRSD. Alice expressed concern about a timeline for resolution. How much money will be involved? Consensus of tonight’s meeting is to wait to see how the BOS works this out.

7. Item 6: Information regarding the salt shed and highway department. BOS is weighing the present salt shed location versus relocating to the Bray Rd property. Funding continues to be an issue. Estimate of 200k for a Quonset-type hoop structure, not including sitework. There is a two year wait between receipt of order and delivery for a new highway dump/plow truck. Alice asked whether we need to have the purchase amount allocated at the time order is placed in order to vote to purchase. What are the DOR rules?
8. Item 7: Information regarding the fire department’s proposed garage at the Jacobs Rd property. No further information or discussion.
9. Item 8: Next meeting date: November 17th, 6:30 pm at 18 Jacobs Rd. Possible agenda would be the budget worksheet memo.

Respectfully Submitted,
