Tracey Baronas also presented information about Tropical Storm Irene cost reimbursements.  It has come to the attention of the town officials that a handful of surrounding towns have recently received MEMA reimbursements for some of these costs.  Heath was not on the list of towns.  Tracey reported that she, along with Kara Leistyna, Town Coordinator, have been reaching out to our state representatives for further information and assistance with this issue.  It is understood that other towns are also looking for additional reimbursements.  The plan is for Tracey to continue to push for additional funds to be released to these towns which did not recently receive reimbursements. Town Coordinator will draft letters to send to legislators.

6:35 p.m. Tracey Baronas exits the meeting.

6:38 p.m. Discussion began with FinCom and guest, Heather Hathwell, Board of Assessors on the decision as to whether or not the BOS should send out a letter penned by Ned Wolf, on the Town’s behalf, to National Grid for information and clarification in regards to the recent drop in assessment by the utility companies. The BoA presented a letter to the BoS explaining their position on this letter and their concerns associated with sending out such a letter at this time. BoA also supplied an optional letter that the BoA felt was acceptable.  Heather spoke to both letters. It was reported that the BoA is currently working on the utility issue by preparing a request for information required to determine the actual fair cash valuation of the utility company’s property under Mass General Law, Chapter 59, Section 38F. The BoA is also working to obtain proposals from expert appraisers to assist with this issue. It was decided that BoA and FinCom would continue discussions on the proposed letters and report back to BoS at a later date.
