

# Heath Board of Health Announcement

Please be advised that the town of Leyden has had a Positive Mosquito for West Nile Virus.

Belchertown has had a positive Triple E mosquito.

There are NO human cases!

Mosquito testing is done in Heath on a weekly bases by the Pioneer Valley Mosquito Control District (PVMCD). Heath has been a longstanding member of this program.

\*It is important that you protect yourself and your family by avoiding being out at dusk and dawn.

That's when mosquitoes are looking for a great meal like you!

\*When outdoors consider using bug spray.

\*Wear clothing that covers your arms and legs.

\*If possible empty your bird baths and turn them upside down to avoid standing water.
